## **Android User Manual**

## Contents

1. Downloading the application .....	3
2. Registering the application .....	3
3. Favorites Screen.....	5
4. Zones Screen .....	6
5. Settings Screen.....	8
6. Ways to open a door.....	9

## 1. Downloading the application

To download the IP-INTEGRA ACC application, Users should open the Welcome e-mail and either scan the QR codes or click on them.

## 2. Registering the application

After opening the IP-INTEGRA ACC application, Welcome screen will be displayed.

IP-INTEGRA ACC WELCOME SCREEN

By pressing the **Scan QR Code**, a scanner will open. Users will then proceed to scan the QR code provided in the Welcome e-mail and the application will be set up automatically.

REGISTRATION QR CODE

**NOTE:** If administrator has enabled the 2FA, users will be asked to enter the 6-digits received in the second e-mail which will be sent after scanning the QR code.

TWO FACTOR AUTHENTICATION

Alternative way of registering the application is accessing the Welcome e-mail from the mobile device and tapping on **“Click to register device”** button.

### 3. Favorites Screen

After successful verification, **Favorites** screen will be displayed. By default, no doors are added, and Users have the option to mark doors as favorite (process will be described below).

FAVORITES SCREEN

On the bottom of the screen in navigation bar left from **Favorites** are Zones, and on right side are **Settings**.

### 4. Zones Screen

By tapping on **Zones** icon in the navigation bar, all Zones to which user has access will be displayed.

ACCESSIBLE ZONES

By tapping on wanted Zone, all doors assigned to that Zone will be displayed.

### DOORS WITHIN A ZONE

A door can be added to Favorites by tapping the white star icon. Door that is already added to Favorites will show their star in green color.

## 5. Settings Screen

Under **Settings**, User have the option to **Use Biometrics**. This option adds extra layer of security and to open a door, User will be required to scan a fingerprint.

It is possible to turn **Dark Mode** on or off from Settings (off by default).

SETTINGS

Tapping on **Help** redirect User to **IP-INTEGRA website** while **About** will display basic information about the app.

By pressing **Logout**, User will be logged out of the application and their mobile device unlinked from their account.

## 6. Ways to open a door

Two ways exist for opening a door while using IP-INTEGRA ACC application:

- Long pressing the door icons located either in **Zones** or **Favorites** screen
- Scanning a QR code from a sticker (provided that Administrator placed the stickers by the door).

After a door is successfully open, User will receive vibration feedback from their mobile device and the door icon will turn green.

DOOR SUCCESSFULLY OPEN

Freund Elektronik A/S, in cooperation with our sister company Freund Elektronika D.O.O. Sarajevo, is developing an IP-Based Intercoms, Audio Systems, Access Control and Smart Home solutions.

As a developer, manufacturer, and reseller, we have been self-improving and perfecting ourselves for over 30 years.

In the industry, we negotiate the most advanced and innovative solutions regarding the building communication. Our daily focus is on the development and user friendliness of our high quality and pleasantly designed products.

As a developer and manufacturer of our own IP-INTEGRA system, we have made a top-of-the-line products for Door Telephony, Public Audio, and Access Control solution.

Our development department, together with our partners, has created elegant and robust door phones, SIP-Centrals, Terminals, IP-Speakers, ACC Controllers, and applications with intelligent features using the most advanced technologies when available, and creating new technologies when they are not while keeping it simple for our customers.
